

Send me FollettBound books. Let me know if you need them replaced (replaced free,) or if you just want them removed from your library. If you have already had them replaced by Follett, let me know that as well, and what you did with the old copy, (example If you used the same barcode, or if you got a new barcode.) I will delete, or transfer these books. All other books you will need to delete out of your system and box them up with a list of titles that has your signature, and your principal's signature. Please put a copy in the box of deleted books, keep a copy for yourself, and send me a copy. Have your secretary put a work order in and send them over to Edgewood for deletion. As for DVD's and VHS delete them out of your system and send them to me (only if you are deleting them).
