#5

Review the Explore-Explain-Apply strategy shown in the diagram below. Think about any upcoming units you will be teaching. In the space following the diagram, plan out how you might incorporate this strategy into one of those upcoming units, including any ideas you have for application projects or tasks.

Explore	Explain	Apply
DiscoveringQuestioningGatheringIdentifyingNavigatingResponding	 Teach Fill in the gaps Tie information together Provide information that is complex Help organize information 	Students TAKE what they learned and APPLY it to activity Project Creation Response Experiment Data collection
 Set expectations Ask guiding questions Provide space and opportunities for recording Provide options for collecting 	 Set-up frameworks for organization Provide opportunities for questions Encourage conversation Allow for collaboration 	 Set clear expectations for application activity Provide evaluation tool at onset Create cycle for feedback
